

# Operator control and process monitoring - Text Display

## TD 200C

### Overview

- The user-friendly text display for the S7-200 with customizable display
- For control and monitoring:
  - Message text display, intervention in PLC program, setting of inputs and outputs
- Direct connection to CPU interface using supplied cable or incorporation into network (also via EM 277)
- No separate power supply required
- No separate parameterization software required
- Frontpanel design can be individually selected
- Addressing and setting of contrast in supplied menu

### Application

The TD 200C Text Display is the ideal solution for all HMI tasks of the SIMATIC S7-200. The ability to print the surface of the device individually allows it to be optimally adapted to the application environment.

It supports:

- Display of message texts
- Interventions in the control program, e.g. modification of setpoints
- Setting of inputs and outputs, e.g. for switching a motor on and off
